

Dear FDA,

253 02 FEB 19 11:58
Hi my name is Cainan. I am 15 years old. I think you should not slaughter sick cows because the disease might get into our food system. We might get sick and if we eat the meat we might get food poisons. If we do eat this meat then the people would be getting sick and the hospitals would be filling up. Then your FDA department would be getting Lawsuits all over the place. That is why we should not be slaughtering the sick cows. I urge you to support docket number 98P-0151/CPI that prohibits the slaughtering of downed animals.

Sincerely,

Cainan Mullins
